PRODUCT DETAILS

Amplify happiness with tomorrow's entertainment today

Built on a high-current amp system that effortlessly drives four-ohm speakers, the TX-NR474 has muscle to boost enjoyment of sound, whether it's music, a movie soundtrack, or the Sunday football. Experience the magic of Dolby Atmos®* and DTS:X® enhancing 4K movies encoded with HDR10 or Dolby Vision™ via compatible Ultra HD Blu-ray Disc™ players thanks to the receiver's 4K HDR pass-through function.

You can share your music to supported wireless speakers over FlareConnect™*, while dual-band Wi-Fi® provides stability for Chromecast built-in*, DTS Play-Fi®*, AirPlay, and streaming services such as Spotify®. With a slick GUI and Onkyo Controller app, operation is simple. So sit back, relax, and let the sound of happiness wash over you.
