PRODUCT DETAILS

Stylish colors and features in one sweet-sounding package

With quick and easy NFC pairing for mobiles, Bluetooth technology, and more amp power than ever, the CS-265 brings big and brilliant sound to small spaces. A quality front-loading CD player handles regular audio CD and both MP3- and WAV-encoded discs, while iOS mobile users are treated to an ultra-clear USB connection. Or fill a USB flash drive with MP3s and select tracks using the included remote control.

Whichever way you play, you'll appreciate sound that belies the system's compact dimensions. A redesigned digital amp and powerful 2-way bookshelf speakers help to uncover hidden details in the mix while projecting music deep and wide in your room.

Like it punchy, or with a more laid-back presentation? Proper tone controls and a 2-Mode Super Bass function let you find the right balance. Available in bold and vibrant colors, and looking fantastic with its clean, sleek lines, the CS-265 is easily the coolest and best-sounding mini system we've ever made at this price. It feels reassuringly weighty, solid, and well worthy of our 65 years in the Hi-Fi business.
