PRODUCT DETAILS

Experience DTS:X® and Dolby Atmos®

Make object-based Dolby Atmos and DTS:X surroundsound reality in your living room. Sound flows naturally above and around you in three dimensions, putting you literally in the center of the action.

Quality Speakers for Object-Based Sound

Joining two large OMF woofers and dome tweeters inside the front speakers are special drivers that bounce discrete effects—such as birdcalls, rain, the sound of a helicopter—from the ceiling and into the audience. In fact, every element in object-based sound is mixed separately, so it's free to travel from speaker to speaker, anywhere around the room. Each solidly crafted speaker in this 5.1.2 package reproduces next generation sound as its creators intended.

AccuEQ Calibration Featuring AccuReflex Technology

AccuEQ equalizes the surround-sound to suit the room acoustics for crisply focused sound, while AccuReflex aligns the phase of Dolby Atmos-enabled speakers with sound coming from your other speakers. Delay is resolved so that everything arrives at your ears at the same time. The result is cohesive reproduction of object-based soundtracks.

Chromecast built-in* and AirPlay

The HT-R695 receiver, now with Chromecast built-in and AirPlay, frees music from your smartphone. You can stream music and audio programs from a huge range of Chromecast built-in or AirPlay applications.

* Chromecast built-in enabled via firmware update.

FlareConnect™ Wireless Multi-room Audio

FlareConnect* shares audio from network and external audio input sources between compatible components. Enjoy effortless multi-room playback of LP records, CDs, network music services, and more with supported components and speaker systems. Music selection, speaker grouping, and playback management across the home are built into the Onkyo Controller app.

Bluetooth Audio / Wi-Fi® with Spotify® and TIDAL*

In addition to Chromecast built-in and AirPlay, you can stream virtually any audio from smartphone, tablet, or laptop to your home cinema via Wi-Fi® or Bluetooth. Available internet radio and music subscription services include Spotify and many more.

* Support for some services including TIDAL and Deezer enabled via firmware update.

Latest Spec HDMI® 8 In / 2 Out (Including 1 Front)

Select HDMI terminals support 4K/60 Hz video, HDCP 2.2 copy protection, and High Dynamic Range (HDR) for next-generation Ultra HD streaming and broadcasting on the latest TV sets.

Dynamic Audio Amplification for Thrilling Sound

Power your speakers like never before with Onkyo's unique Dynamic Audio Amplification system. Music lives and breathes thanks to accurate, noise-free signal processing and hi-current power that dynamically controls your speakers for authentic audio reproduction, filling you with emotion.

Play Everything from Vinyl to Hi-Res Audio

A phono input connects a turntable so you can enjoy your record collection, and we've also added easy-to-use universal Hi-Res Audio compatibility as well. Just use Onkyo Controller to find your albums on PC/NAS and relish the clarity and detail on your Onkyo home theater.

For more specifications, see the datasheet in the downloads tab.
