PRODUCT DETAILS

Unlock Dolby Atmos® and DTS:X® Playback

Object-based mixing lets sounds play through any speaker independently. Effects move above and around you as in real life. Enjoy movies and games with 3.1.2-channel Dolby Atmos* sound, and DTS:X through any speaker layout, and discover a new sonic dimension.

* Enabled with firmware update.

Surround Enhancer* Mode

Based on technology developed by Dolby Laboratories, Inc., Surround Enhancer Mode augments the object-based soundfield with virtual channels that emulate a 5.1.2-channel Dolby Atmos experience as delivered by a comparable 7.1-channel receiver. With Surround Enhancer Mode, you can enjoy a 5.1.2-channel 3D soundfield easily without need of rear speakers.

* Enabled with firmware update.

Powerful Amps for Deeper Immersion in Movies

The receiver's slim form contains an efficient digital amplification system with discrete output stages and independent power supply to deliver clean power to a 5.1-channel speaker system of your choice.

Music Made Easy with Chromecast built-in*

Stream any music from your smartphone, laptop, or PC to the TX-L50 with ease. Control playback with Chromecast-enabled apps you know and love from your iPhone, iPad, Android™ phone or tablet, Mac or Windows® laptop, or Chromebook.

* Enabled with firmware update.

Ready for DTS Play-Fi®* Multi-room Audio

DTS Play-Fi allows you to enjoy high-quality music from connected online services, networked media servers, and your device library over Wi-Fi® to any number of compatible products using the Onkyo

Music Control App for iPad, iPhone, and Android™ smartphones/tablets. DTS Play-Fi can synchronize the music in every room. Each member of your family can use their own device to listen to their own music in their room or group of rooms. DTS Play-Fi lets you easily structure a comprehensive multi-room ecosystem that satisfies virtually any need. For more information, visit www.play-fi.com.

* Enabled with a firmware update.

Supports TIDAL*, Spotify®, Deezer*, and TuneIn

The TX-L50 supports a variety of streaming services, giving you immediate access to a massive selection of music with easy song selection and control via smartphone apps.

* Service enabled via firmware update.

Delivering Content to Ultra HD TVs

Up to four media players can be connected to the receiver via HDCP 2.2-compliant HDMI® terminals, sending 4K/60p video to the latest displays via a single cable. Signals encoded with BT.2020, 4:4:4 color space, and HDR are passed through to the display for truly stunning pictures.

Surround Sound for Films and Gaming

The TX-L50 decodes multichannel Dolby® TrueHD and DTS-HD Master Audio™ so you get an authentic surround sound experience as the director intended. Various listening modes are included to optimize different content.

Stream and Control with Intuitive Remote App

The ability to control music from anywhere in your home is right in your pocket: our free Onkyo Controller app gives quick access to inbuilt streaming services and lets you control playback from anywhere within range of the home network.

FlareConnect™ Wireless Multi-room Audio

FlareConnect* shares audio from network and external audio input sources between compatible components. Enjoy effortless multi-room playback of LP records, CDs, network music services, and more with supported components and speaker systems. Music selection, speaker grouping, and playback management across the home are built into the Onkyo Controller app.

AccuEQ Room Acoustic Calibration

In moments, AccuEQ measures and analyzes sound output from your speaker layout and corrects the response for beautifully clear and cohesive surround-sound in your listening space, no matter the shape or size.

Wi-Fi®, AirPlay, and Bluetooth® Technology

Dual-band 5 GHz/2.4 GHz Wi-Fi assures a stable connection so you can stream over AirPlay and the local network.

Bluetooth wireless technology provides a quick and simple streaming from your choice of app and device.

Highlights
